

HMT LED

For perfect readability

The HMT LED range of clocks is suitable for the most demanding climate conditions, such as humidity and extreme temperatures. It combines all the technical performance needed to fit into outdoor and large indoor spaces such as airports, train stations, car parks, shopping centres, factories and stadiums.

HMT LED

Product advantages

- **Waterproof** (IP54)
- **Resilient** (IK07 for better impact resistance)
- **Time count/countdown mode**
- **Automatic display** brightness adjustment
- **Time easy to see** thanks to anti-glare protection

Characteristics

Synchronisations

LED colours

	HMT 10	HMT 15	HMT 20	HMT 25	HMT 45
Display height	10 cm	15 cm	20 cm	25 cm	45 cm
Reading distance	40 m	60 m	90 m	120 m	200 m
Display	Hour, minutes, date, temperature				
Mounting options	Mast, ceiling, double sided				Wall
Waterproof	●				
Use	Outdoor				

HMS LED

Transport

A clock for transport

The clocks in the HMS LED range, specifically intended for the transport sector, are often put to the test. Between the sun, high temperatures, rain, ice, cold, and impacts, they are designed to resist all kinds of weather conditions.

HMS LED

Product advantages

- **Complete time display** (hours, minutes, seconds, temperature)
- **Additional optional functions** (count-up or countdown game clock)
- **Casing that resists** dust, water, and exterior impacts
- **Equipped with tropicalised electronic boards** (to prevent rust, humidity and mould)

Characteristics

Synchronisations

LED colours
